REASONS FOR ALLOWANCE

1. Applicants canceled claims 2-4, 10, 17, 25-34 and 36-38.
2. The following is an examiner's statement of reasons for allowance: As indicated previously, Vajo et al'379 does not teach or suggest presently claimed at least partially crystalline titania of claim 1, present step of applying at least partly hydrolyzed polyalkoxysiloxane material of claims 15 or present at least partly hydrolyzed polyalkoxysiloxane material of claim 35. Also, in Kashiwabara et al (JP 2000-280397 and its machine-assisted English translation provided by JPO), an organic substrate is first spray-coated with a solution containing $\text{CH}_3\text{-Si}(\text{OCH}_3)_3$ hydrolyzate *and then* with an aqueous dispersion containing both TiO_2 and Ti peroxide. Therefore, Kashiwabara does not teach or suggest present method of claim 1 (which has to have two separate steps of (i) depositing a photoactive titania coating and (ii) applying at least one peroxide-containing material *over the photoactive surface*), present method of claim 15 or present article of claim 35, in which the polyalkoxysiloxane material is located above the photoactive titania coating.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sin J. Lee whose telephone number is 571-272-1333.
